

Club WiFi

Wireless Internet Access
for Airports

Club **WiFi** Airport Wifi Access

Wireless Internet Access for your customers

Are you looking to add wireless Internet access to the list of services you give your customers, if so, perhaps we can help. Club Wifi are specialists in installing and supporting WiFi, we manage and look after your Wifi zone, supply you with prepaid user access cards. We even supply all relevant signage and logos for your use and build your own access portal page – maybe adding your list of services for users to access freely.

Giving customers wireless internet access securely and charging for this service will generate income. We work on a 50/50 basis so you have no support charges and earn from supplying the service – simple, secure and hassle free. Rates vary and we advise on what rates should be charged for set amount of times. We even support promotional rates – free access Wednesdays! The system will easily cope with multiple users, and you can add your own PC's or laptops to the system if need be.

We supply you with a preconfigured wireless router/s that control network security – it allows users access to the internet –but no network sharing – most importantly. Your own unique portal page is accessed showing a login screen and free links to web sites of your choice. This unique service may even deliver latest departure/arrival times or Airline/Airport special offers and bookings information.

For an onsite demonstration or more detailed information – call Club Wifi on **05602 813755** or visit our website – **www.clubwifi.co.uk**

** - Club Wifi will need to carry out an onsite survey to determine the area coverage required and cost accordingly.*
